

aiaTranslations is the only life sciences-specialized language translation agency in the United States.

We have more than two decades of experience providing scientific, clinical and medical translations to pharmaceutical companies and the top advertising and market research agencies.

aiaTranslations is also a certified woman-owned business with operations in more than 35 countries.

OUR ADDED VALUE

- Close attention to detail and strong project monitoring and management skills
- Low translator turnover which allows for development and retention of value for ongoing projects
- Strong medical marketing resources with cultural adaptation capabilities
- Multilingual designers available to work directly with the creative agency for seamless project management
